Flip Book and Whiteboard Animation

Make little changes to each frame so it looks like the picture is moving.

Stop-frame animation

Stop frame animation is animation that is captured one frame at time, with physical objects that are moved between frames. When you play back the sequence of images rapidly, it creates the illusion of movement.

Add:

- music
- photos
- text
- transitions

to make your animation more interesting.

Remember to
review, check and
evaluate your
work.

Key Vocabulary

animation	A number of pictures are drawn or taken of an object or picture, and the pictures are shown quickly, which makes it look like the object or picture is moving.
frame	Each of the pictures that you take to make an animation
onion skinning	An editing technique used to see several frames of an animation simultaneously
sequence	To arrange in order
