On Friday 16th October, ten of our enthusiastic Year 5 and Year 6 athletes took to the field for an exciting day of sport, participating in a thrilling T1 rugby session at the historic Dudley Kingswinford Rugby Football Club.

The action-packed day kicked off with a carousel of various 10 minute, fast-paced rugby-themed activities. These challenges put our students' passing, agility, and teamwork skills to the test, and every single player rose to the occasion energetically.

The undisputed highlight of the day came later, when our team had the unforgettable opportunity to play a match against another local primary school. Making the moment even more special, the game was hosted right on the club's official first-team pitch!

Beyond the scores and matches, our pupils gained an immense amount from this sporting experience. By working through the skills stations and navigating a competitive match, the children sharpened their communication, quick decision-making, and strategic thinking under pressure. They learned first-hand how to work together as a unit, while also showing fantastic resilience and sportsmanship when facing unfamiliar opponents.

Our players demonstrated incredible sportsmanship, determination, and collaboration. It was a wonderful day of active fun, and we are incredibly proud of how well our pupils represented the school community on and off the pitch.
